## My Best Friend

My best friend's an angel,  
My best friend's a queen.  
My best friend's a menace;  
She's really rather mean.

My best friend adores me,  
My best friend can share.  
My best friend ignores me;  
She loves to pull my hair.

My best friend's a wonder,  
My best friend's not shy.  
My best friend tells secrets;  
She always seems to lie.

So  
I guess  
She's not *really*  
My real best friend  
At all

Because...

My *real* best friend is loyal,  
My real best friend can't talk.  
My real best friend just barks and wags  
When we go out for walks.

***It's time to get back to Mrs Wordsmith.***

The words this week are emotion words and you will need to find the synonyms and word pairs for the different words listed.

Please click on this link to access the words and illustrations.

This work can be divided up over the next 3 days and we will do usual GPS work on Thursday and Friday.

Enjoy!

**Spellings to learn:**

Please continue with the 4ear 3/4 words. Revisit words that you have forgotten or not yet learnt.

Try Look, cover, write, check. Also try the pyramid method where you add another letter each time.

Good luck.

The number of people seeking to start a career in the healthcare sector has risen during the pandemic, official figures reveal. Health leaders said the wish shown by thousands of people to help them to fight illness was “truly humbling”.

The NHS Health Careers website has seen a 220% rise in people expressing an interest in becoming a nurse.

***Things to talk about at home...***

- Why do you think that lots of people want to work in healthcare at the moment?
- Do you have any idea what you would like to do or be when you are older?
- Can you talk to other people in your home, what jobs interest them? If it's someone older, ask them if they can remember what they were interested in doing or being when they were younger – are they doing it now?
