

<p>Reading 30 minutes</p>	<p><i>Think back over books you have read recently. I would like you to write a book review using the template on the home learning portal. It can be the last book you read or a favourite book you have read before. It could be a book you have shared with someone at home and read together. Think carefully about your opinion and give reasons why you love this book, or don't like it much if that is the case. Lots of use of the word because. I really like this character because... I enjoyed the setting because... The story plot is interesting because... Remember to keep the presentation as neat as possible. Enjoy!</i></p>

<p>Writing 30 minutes</p>	<p>I love this picture. Did it make you laugh? Did you think it was silly? What kind of story could it come from? What do you think the opening paragraph would be for this story? Where would it take place? Who would be in it? What would be happening? Please write at least the opening paragraph for this story. If you want to you can write more, but you must write at least the first paragraph.</p>
