

Oasis have been working alongside Eden Sustainable Group to provide your Academy with its very own, free Solar Power Plant for 25 years!

The install will take place
29/03/21-02/04/21
Build duration – **4 days**

No. of Panels to be installed:
180

PV Size:
The peak power the PV system can operate at.
The total sum of the module output.
48.60kwp (kilowatts peak)

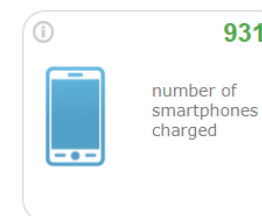

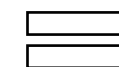

Panel Size:
270watts

So what does this mean?

Estimated Annual Production:
42,842kWh

CO2 Saving Yr 1:
7.3kg

CO2 Saving over 25 years:
175 tonnes
