Principal's Greeting

Dear Parents/Carers,

It has been a rainy but very exciting week at New Oak.

For Year 2, the excitement began on Monday with the long-awaited visit from the fire brigade. All the children got the chance to see first-hand how the equipment worked and to use the small hose under the supervision of a fireman. As they discovered, firing such a powerful jet of water at a cone in the playground was very tricky but also great fun. The branch collapsing on our front gates on Thursday morning got everyone talking and this unexpected event provided great opportunities for writing, something that Year 6 relished.

Our Christmas production has started in earnest. The whole school practised one of the songs in assembly yesterday and sounded quite amazing already. More information about this to follow next week.

Thank you for completing the recent online parent questionnaire. We have now collated the results which are published overleaf. They are overwhelmingly positive which was very encouraging as we feel it is very important to have your feedback. If you disagreed with anything, we would love to talk to you. Please make an appointment to discuss or you can use the suggestion box if you prefer.

Have a great weekend,

Unniel Watkins

Dates for your diary...
